Golem calculator for king of avalon

This is Hale's guide to achieving the highest possible damage to Golems. Troop Formation Calculator by Revenge Gamer: Click-Revenge Gamer PVE Calculator (DO NOT ENTER THIS LINK ON KOA, YOU WILL BE MUTED OR BANNED) Set a war Rally against a barbarian camp to enter your statistics into this calculator. if you go with all bellow buffs assign them before doing barb (except colossal March talent) I recommend all use the calculator and reset the dragon skills when you are ready to push other items. Put your perfect formation: Buffs: Attack- won as rewards or 100/250/400 Gold March Cap- won as rewards or 1500 Gold Temp Relics: Crown of Command- 2000 Gold Battle Blade- 2000 Gold Accolade: Labyrinth Explorer) from Undead Trader Dragon Skill Reset: 100,000 honor to reset all or 1000 Gold Focus on Monster Attack and Mars Capacity Monster Skills Set Up: (Sorry I forgot to screenshot this when you attack I want to update next time) For this setup you will have high attack and March cap, defense and health skills are meaningless. you want to make sure that your highest skills are assigned troop and attack emblems. Improve Skill Reset: 500 Gold Focus on March Capacity and Monster Attack Lord Talent Points Reset: 100,000 honors from Alliance Store or 1000 gold Just focus on Attack Talents ship Health and Defense. November 2018 um 11:50 · How to do more damage to Golem and Portal Monsters I used to send all my strongest bowman to attack golem and portal monsters, but I found a way to do a lot more damage. My alliance leader created a calculator to attack golem and portal monsters, and it

makes a significant difference. I also found that the more levels of troops you have the better. The first time I tried my calculator injury increased by about 35.000 points. When I started exercising and adding lower levels to my march, the damage increased even more. I'll use the calculator correctly you need to host a barbarian rally and click on the level button for the formation. You also need to make sure you have on your war gear, all the increases, a black dragon and all war-related heroes appointed to the barb rally. You must save the report from that rally because you need to enter the statistics from the report in the calculator. Here's the calculator link: Troop Mars Calculator is now available for Android Simple Platoon March Calculator for King of Avalon: Dragon Warfare (KOA). This calculator can be used to configure your PvP and PvE troop formations. Since both KOA and Guns of Glory (GOG) use the same gameplay, of course this tool is interchangeable between the troop march calculator for King of Avalon: Dragon Warfare (KOA). This calculator can be used to configure your PvP and PvE troop formations. Since both KOA and Guns of Glory (GOG) use the same gameplay mechanics, of course this tool is interchangeable between the two games. Just insert your March capacity and choose what percentage of troop type you want and the Troop Mars Calculator tool will spit out the basic troop mix. A good consistent troop mix has been 10-40-40-10 for barbarians, portal and golem, but depending on your statistics this may vary, I will leave the experimentation up to you to find out what works best with your statistics.
